

UserWay Tutorial – Install on SpaceCraft
<https://userway.org/platforms/spacecraft>

Audio	Visual
<p>Hi everyone. In this video, I'm going to show you how to install UserWay widget in SpaceCraft. You must follow all the steps in this video to get the code snippet that you will later paste on your site. Some steps are customization options that you can actually skip and go through them later. But in this video, I will show you all of the steps.</p>	<p>Woman wearing a UserWay shirt is speaking, her video is in a small box in the lower right corner of the screen. This box remains throughout the video.</p> <p>The main screen shows a page from the UserWay website</p>
<p>So, visit UserWay.org and click on "Get the Widget."</p>	<p>The cursor moves to the upper right corner of the UserWay website and clicks the "Get the Widget" button next to the UserWay icon. Step 1 of the code generation questionnaire appears.</p>
<p>Step number one is, add your website address. Also, don't forget to agree to the terms of service and privacy policy.</p>	<p>The example website's URL appears in the "What's your website's address?" window. The cursor clicks the "I agree" checkbox and the "Next" button.</p>
<p>Click on "Next" to step number two. Add your name, last name, and your email. Click on "Next" to step number three.</p>	<p>Step 2 of the questionnaire appears. Sample values appear in these form windows. The cursor clicks the "Next" button in the lower right corner. The form advances to the next page. The cursor clicks the "Next" button.</p>
<p>Select your preferred icon type. You can choose among these four. Click on "Next" to step number four.</p>	<p>Step 3 appears. The cursor highlights the four icon choices, leaving the first (default) option selected. The cursor clicks the "Next" button.</p>
<p>Here you can choose the size of your button. No matter which size you choose, mobile devices will always display the smaller size. Click on "Next" to step number 5.</p>	<p>Step 4 appears, showing the two icon size choices. The cursor hovers over the smaller icon, then clicks the "Next" button, leaving the larger (default) icon size selected.</p>
<p>You can use this color picker to change the color of your button. When you're done, click on "Next" to step number six.</p>	<p>Step 5 appears, showing a spectrum bar and swatch selector. The cursor clicks the "Next" button.</p>

UserWay Tutorial – Install on SpaceCraft

<p>Select the position of your button on your site. As you can see, there are eight different positions. Now let's click on "Next" to step number seven.</p>	<p>Step 6 appears, and the cursor highlights some of the possible icon positions around the perimeter of a webpage layout. The cursor clicks the "Next" button, leaving the upper right (default) setting selected.</p>
<p>Select your preferred language. You can let the widget to automatically detect the language of your visitor, or you can force the widget to display in a specific language. If you want the second option, then you can open this list and select your language.</p>	<p>Step 7 appears. The cursor highlights the "Language" field, in which contains the default text, "Auto-Detect Language." The cursor clicks the dropdown arrow in the "Language" box and a list of languages appears.</p>
<p>Now let's continue to step number eight.</p>	<p>The cursor clicks out of the dropdown menu, restoring the default selection and clicks the "Next" button.</p>
<p>If you don't have an accessibility statement yet, don't worry about it, because we can help you with that. Just leave "No/I Don't Know" selected, and we'll help you with that later. Now let's continue to step number nine.</p>	<p>Step 8 appears, asking if the user's site already contains an accessibility statement. "No/I Don't Know" is the default selection. The cursor clicks the "Next" button.</p>
<p>If you're interested in advanced custom options for this widget, then I recommend you to click "I'd like to learn more" for more information.</p>	<p>The form advances to Step 9, displaying an option to learn more about a white-label or custom-branded version of the UserWay widget. The cursor clicks the "Next" button.</p>
<p>Then scroll down and click on "Next" for our last step.</p>	<p>The cursor scrolls down to click on the "Next" button.</p>
<p>Here is our code. Let's click on the "Copy" button, and I will see you guys in SpaceCraft.</p>	<p>Step 10 appears, showing a window containing the UserWay script. The cursor clicks on the "Copy" button in the window's upper right corner. The code is highlighted.</p>
<p>I'm in SpaceCraft dashboard. The code is copied to my clipboard. So, follow me and I'll show you where you have to paste it.</p>	<p>The screen transitions to the example site's SpaceCraft dashboard page.</p>
<p>Click on "Content."</p>	<p>The cursor moves to the top menu bar and clicks on the "Content" tab. The Content page loads.</p>

UserWay Tutorial – Install on SpaceCraft

And on the right, click on “Footer.”	The cursor clicks on “Footer” under the “Global Content” header in the window’s right panel. The Footer window appears.
Here we can find all the content in our footer. So, what we have to do is, add a new block. So, let’s click on the “Add” button.	The cursor scrolls to and clicks the “+” button between the “Text/Description” and “Text (Contact)” fields in the content window.
Scroll down a little bit and click on “HTML.”	The cursor scrolls down to reveal several icons identifying the types of content that can be added. The cursor clicks the “HTML” icon The HTML window appears.
Here’s where we have to paste our code. Let’s paste it and click on “Save.”	The cursor pastes the code into the main panel in the HTML window. The cursor clicks the “Save” button at the top of the window.
Let’s scroll all the way to the top and click on “Publish.”	The cursor scrolls to the top of the Content page and clicks the “Publish” tab in the upper right. The message, “Your Site Is Publishing” appears, then fades.
And now, let’s preview our site.	The example website appears.
So, it has been published, and you can see the widget correctly. If you can see the widget on your site, that means that you have installed it correctly.	The cursor clicks the UserWay widget icon in the upper right. The Accessibility menu appears.
Also, there’s another way to verify this installation. Let’s go back to userway.org and show you how. You can click on “Let’s Verify” button to make sure you have done everything correctly. But again, if you see the widget, that means that you have done everything OK.	The screen returns to the UserWay site page with the script highlighted in Step 10. The cursor highlights the “Let’s Verify” button.
So, what you can do now is click on “Skip.” And here’s your accessibility statement. This is a template that we’re sharing with you that you can copy. You can add your own details, customize it as you want, and bring it to your site.	The cursor clicks the “Skip” button next to the “Let’s Verify” button. The accessibility statement appears.
